

# talon™ Mail

Talon Mail is a highly secure email solution specifically for public safety personnel. Built into Talon, it provides an alternative to Who's Where Instant Messaging. It allows users to send messages and attachments to both on and off duty personnel. Users are limited to contacting other Talon users; providing protection and security.

## Features and Benefits

- \* 256-bit data encryption
- \* Increases safety
- \* User friendly
- \* Save time
- \* Leverage Talon investment

## Email Capabilities

- Standard email functions
- Email on and off duty officers
- Send attachments

## Security

- Talon to Talon clients only
- MultiBridge encryption
